2.1.2 For clinical research applications only!

Please note the name of the registry where this study is or will be registered:

2.2 Research plan
This research plan should cover the following points:
2.2.1 Brief description of the current status of research in the field in which the work is planned, giving the titles of the most important relevant studies by other authors.
2.2.2 Brief description of the status of the applicant's own research in the field in which the work is planned, giving the titles of the most important relevant studies.
2.2.3 Detailed research plan
2.2.4 Time-frame for the overall project: Which research activities are scheduled to be carried out during the period for which funding has been requested?
2.2.5 What, in your opinion, is the significance of the planned work?
2.2.6 How is the project under consideration connected to work you are carrying out which is being funded by other bodies (e.g. university, Swiss National Foundation for Scientific Research, cantonal cancer leagues)?

If the research project comprises several individual projects, scientific details must be supplied separately for each of them (A, B, C). In this case the applicant should state which scientists will be involved in each individual project and who will be the scientific project manager in each case.
